LETTER OF RECOMMENDATION

To whom it may concern

I am pleased to write this recommendation letter for Mr. Aryan Mittal's undergraduate application for admission to work at your reputed Institution. Mr. Aryan Mittal enrolled with Amity International School, Ghaziabad, India. I have observed that Aryan is a devoted and hard-working individual who is aware of his competencies and uses them to his advantage to flourish in an assigned task. I am aware of his abilities and qualities which prompts me to put forward the recommendation for admission at your reputed Institution for a major in Engineering, in which I am sure he will excel.

I have supervised Aryan's active participation and engaging thoughts in several Learning interactions of various programs organized by ISRO over the past one year (2024 – 2025) and can confidently affirm his strengths as a candidate for your world class engineering program. Aryan's understanding of foundational topics in engineering was far beyond the average student of his age. I was struck by Aryan Mittal's ability to understand engineering principles and to apply them across disciplines, focusing specifically on Space Science as our main field of exploration.

Mr. Aryan Mittal is always self-motivated to put in extra effort for accomplishing tasks rather than working aridly. With his enthusiasm and sincerity towards his work, Aryan was able to adapt to the work environment very easily and admirably completed his assign task in the stipulated time. He showed exceptional communication skills while presenting his work. I was delighted to witness his time management skills and his ability to work in a team of people with his peers and superiors.

Overall, Aryan is intelligent, observant and an enthusiastic learner. He bears excellent character and conduct. Additionally, he holds impressive communication skills. He also has a very good understanding of topics in Engineering and related fields and is fluent in both written and spoken English.

I, therefore, strongly recommend him for his under graduate studies at your renowned institution with all the necessary resources that he deserves. He has my full support for his undergraduate application.

I am certain that he will keep up to his potential and bring honor to your institution.

Sincerely,

R.K. VARMA
